

Name: Priya Sharma

Skills: Java, Spring Boot, Kubernetes, PostgreSQL, Kafka, AWS, TypeScript

Projects:

- Realtime Analytics Pipeline: Designed and built a Kafka-based ingestion pipeline at a fintech internship to replace a nightly batch ETL job. Personally owned the consumer service and schema design end to end. Reduced data latency from 24 hours to under 90 seconds and processed 1.2M events per day in production. [Java, Spring Boot, Kafka, PostgreSQL]
- Campus Event Finder: Built a TypeScript/React web app so students could discover and RSVP to campus events, including a recommendation feature using collaborative filtering. Grew to 500+ weekly active users within a semester. [TypeScript, React, Node.js, MongoDB]
